Thank you for your time to attend the Video Stability Mean Opinion Score test.

During the test, you will be asked to watch the video carefully and rate the overall stability according to the following opinion scale.

Rating	Definition	Description
1	Excellent	Perfectively Stable
2	Good	Very Satisfactory
3	Fair	Reasonable (requires more stable)
4	Poor	Hard to understand the stability
5	Bad	Very difficult to understand the stability
